Program Terms & Conditions

Program Eligibility

Available to individual prosthetists who purchase a Glide Eval Kit through an authorized channel. Eligibility is determined per prosthetist and per office location, based on the delivery address associated with each qualifying purchase. Each office location is eligible for one Eval Kit rebate; a location that has already redeemed is not eligible again.

Eval Kit Purchase Price

Customer pays full retail price at the time of purchase — the standard list price in effect at that time, through IBT direct or an authorized distributor, with no discount, rebate, or promotional credit applied beyond that channel's standard pricing.

Qualifying System Purchases

Customer must purchase three (3) Glide systems after acquiring the Eval Kit. Purchases may be made across separate transactions and do not need to be placed simultaneously.

Qualifying Purchase Window

All three qualifying purchases must occur within twelve (12) months of the Eval Kit purchase date.

Return Policy Requirement

All three Glide system purchases must be final and not returned for the rebate to remain valid. If a qualifying system is returned after the credit memo has been issued, the credit memo is voided and any value already applied will be reflected on the customer's next invoice.

Rebate Amount

IBT issues a credit memo equal to the full purchase price paid for the Glide Eval Kit.

Credit Memo Details

- Issued to the purchasing account within 15 business days of IBT verifying the third qualifying system purchase
- Must be applied in full toward a single subsequent purchase and cannot be split across multiple orders.
- Non-transferable, has no cash redemption value, and may only be applied to the account of the original Eval Kit purchaser.
- Expires 12 months from the date of issuance if not applied.

Program Administration

Questions about rebate eligibility or credit memo status: contact your IBT representative or IBT customer support. IBT may modify or discontinue this program at any time upon at least thirty (30) days' written notice to enrolled participants; any prosthetist who purchased an Eval Kit before such a notice may complete their qualifying cycle and receive their credit memo under the terms in effect at the time of their Eval Kit purchase.
